

# CHINESE WATER DEER – *Hydropotes inermis*

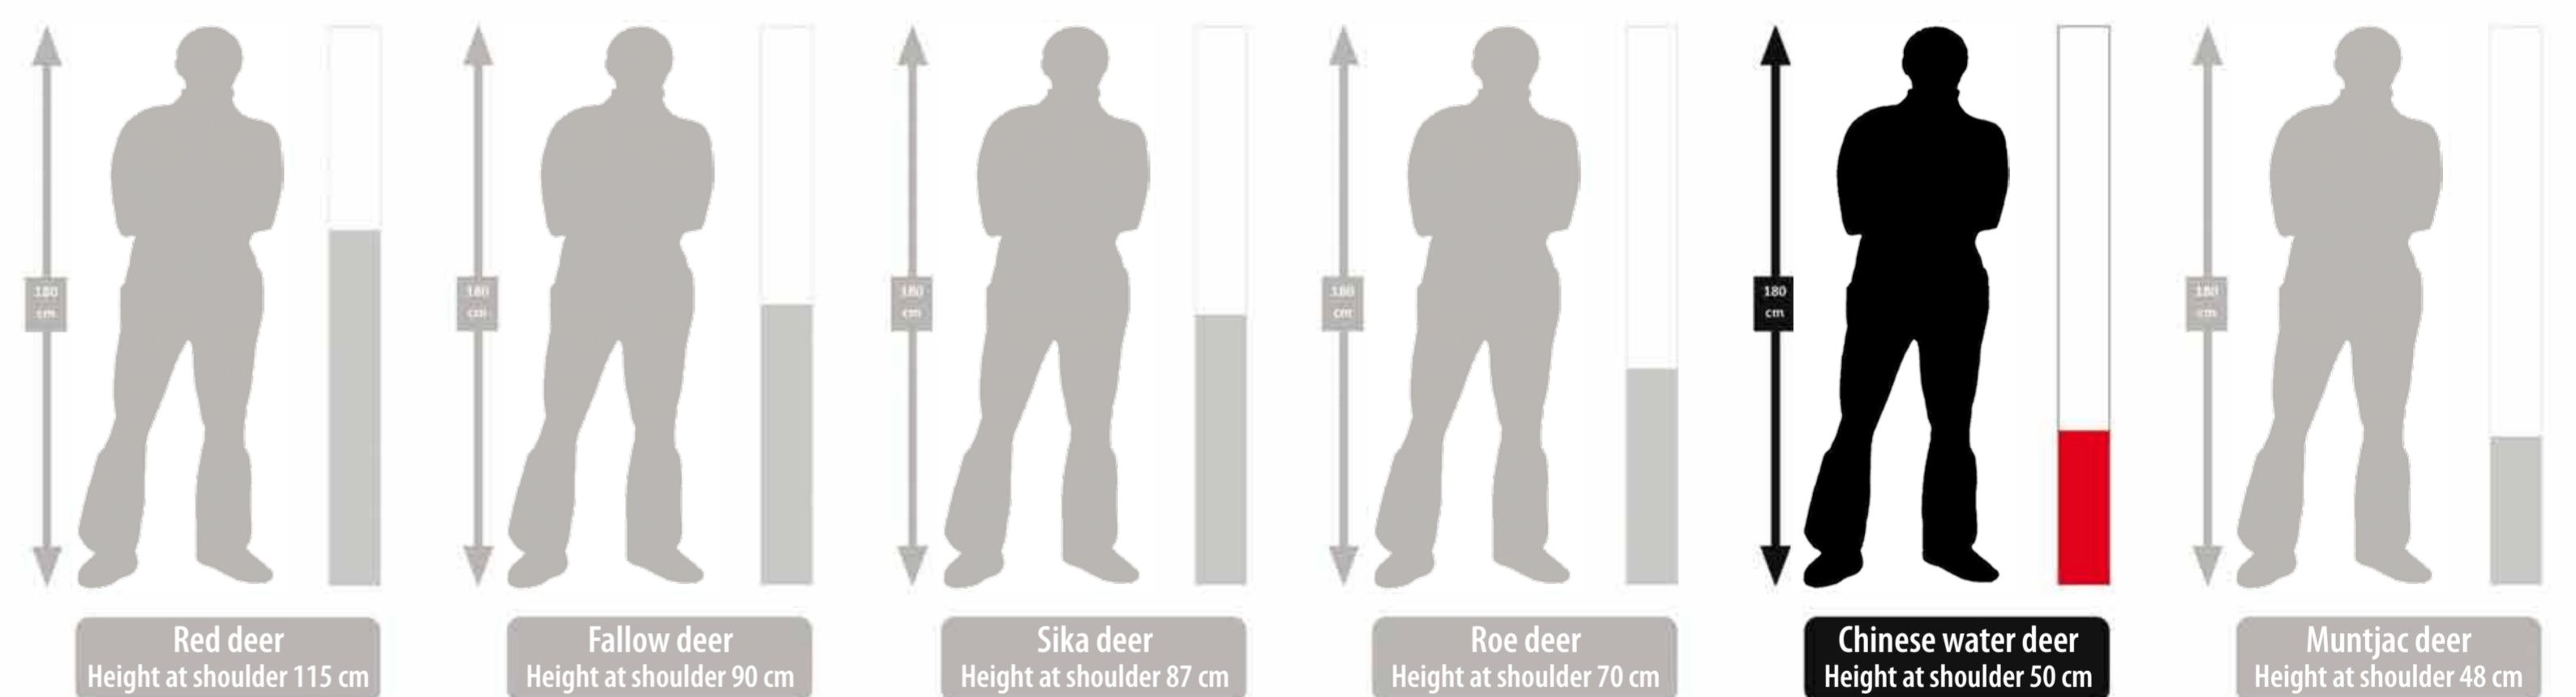

## WHERE DO THEY LIVE?

### UK CHINESE WATER DEER DISTRIBUTION

©The British Deer Society 2011

## HOW BIG ARE THEY?

## DID YOU KNOW?

### Chinese water deer:

- are a primitive form of deer with canine teeth and no antlers
- come from China and Korea
- have large rounded ears with faces similar to teddy bears
- are listed as an endangered species. About 10% of the worldwide population lives in Britain

Young (fawns) born between June and July.

Chinese water deer are usually solitary except during the breeding season.
