

# MUNTJAC DEER – *Muntiacus reevesi*

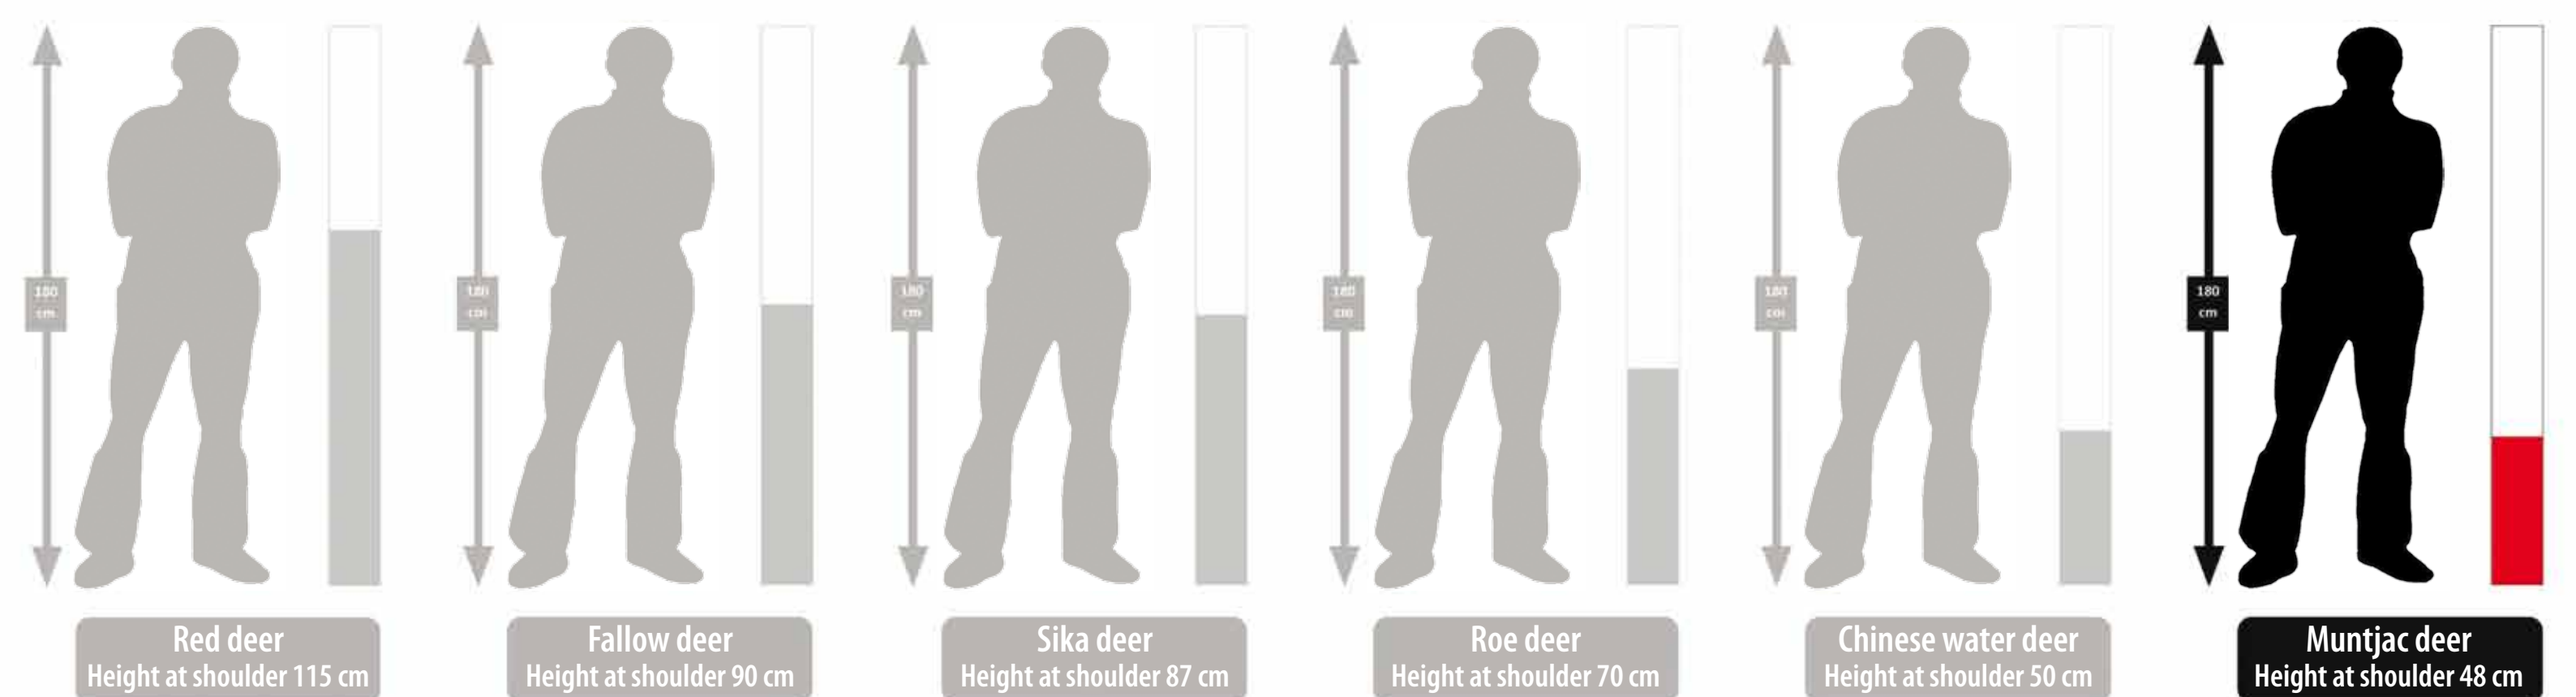

## WHERE DO THEY LIVE?

### UK MUNTJAC DEER DISTRIBUTION

©The British Deer Society 2011

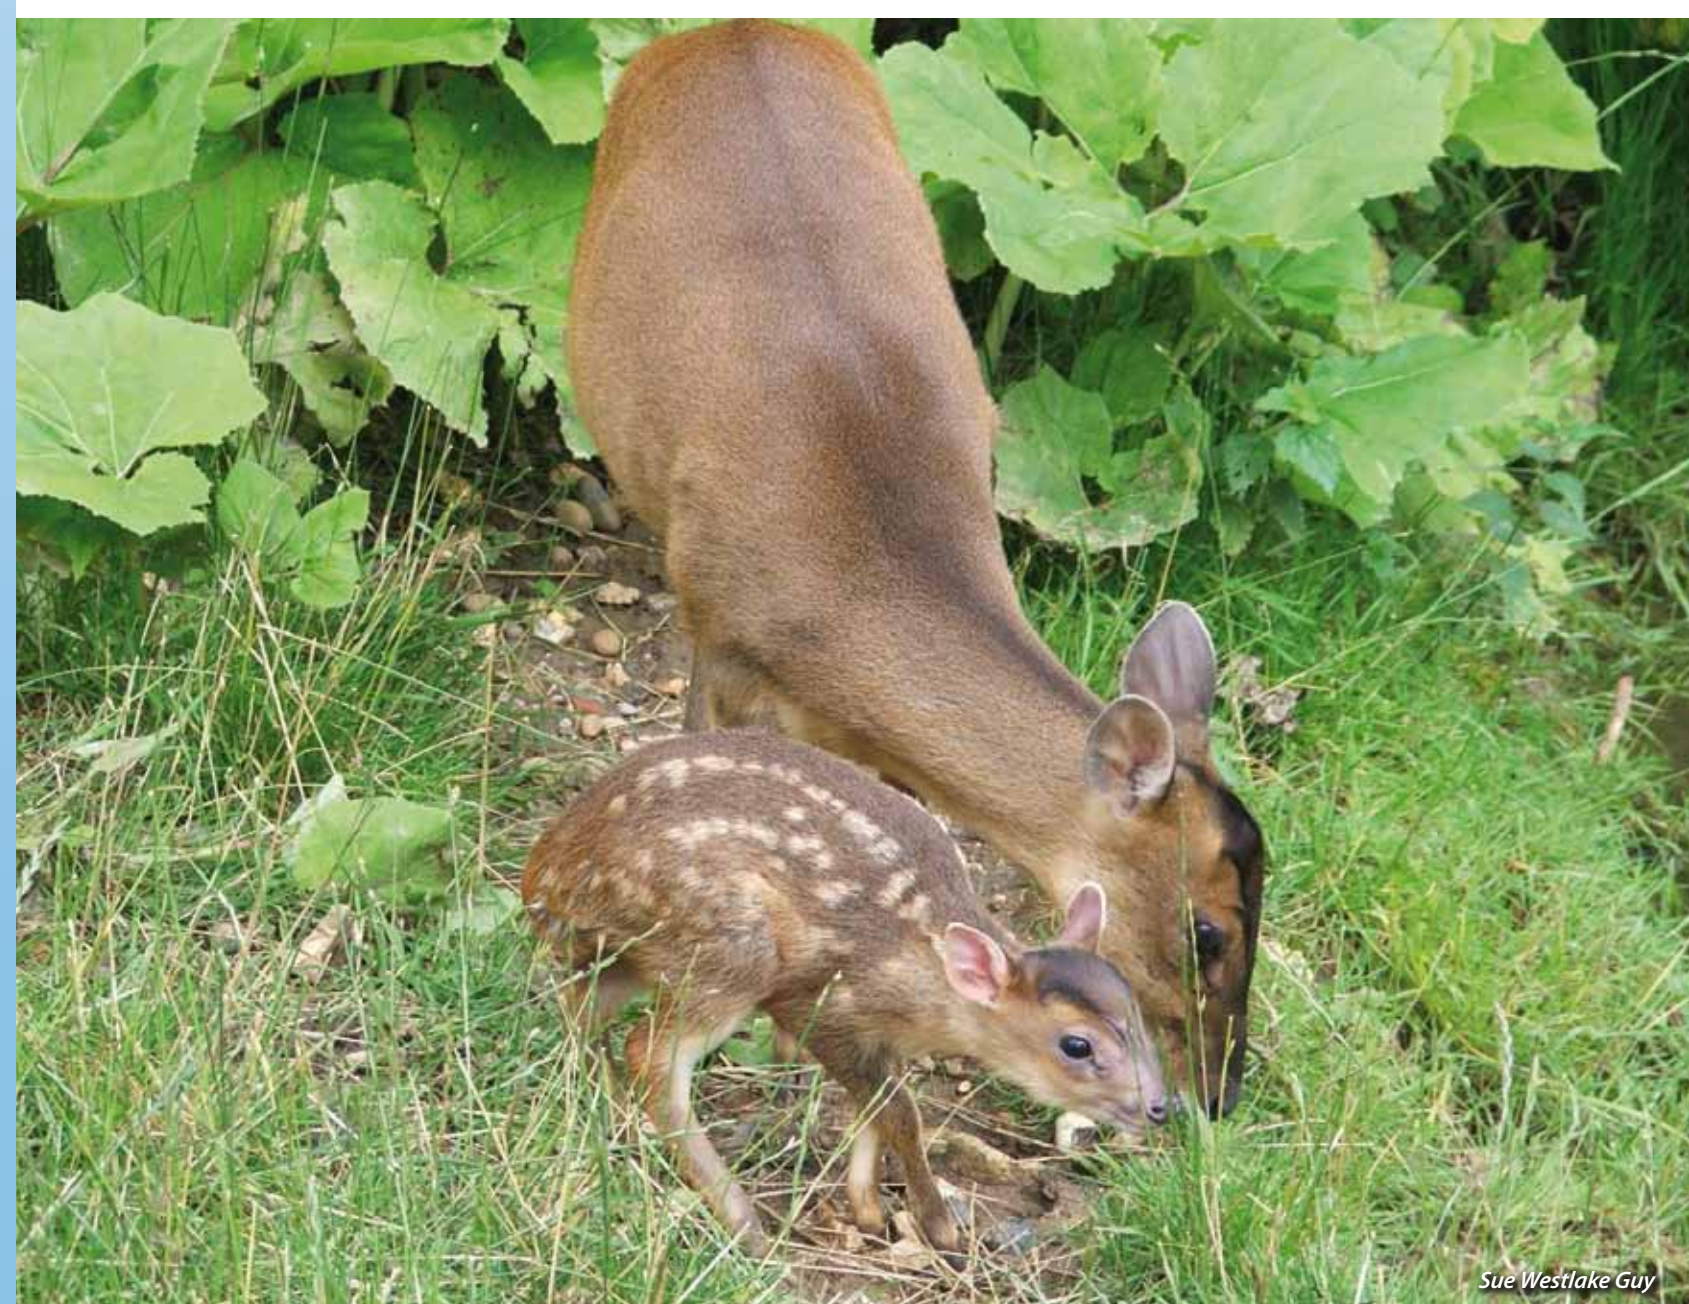

## HOW BIG ARE THEY?

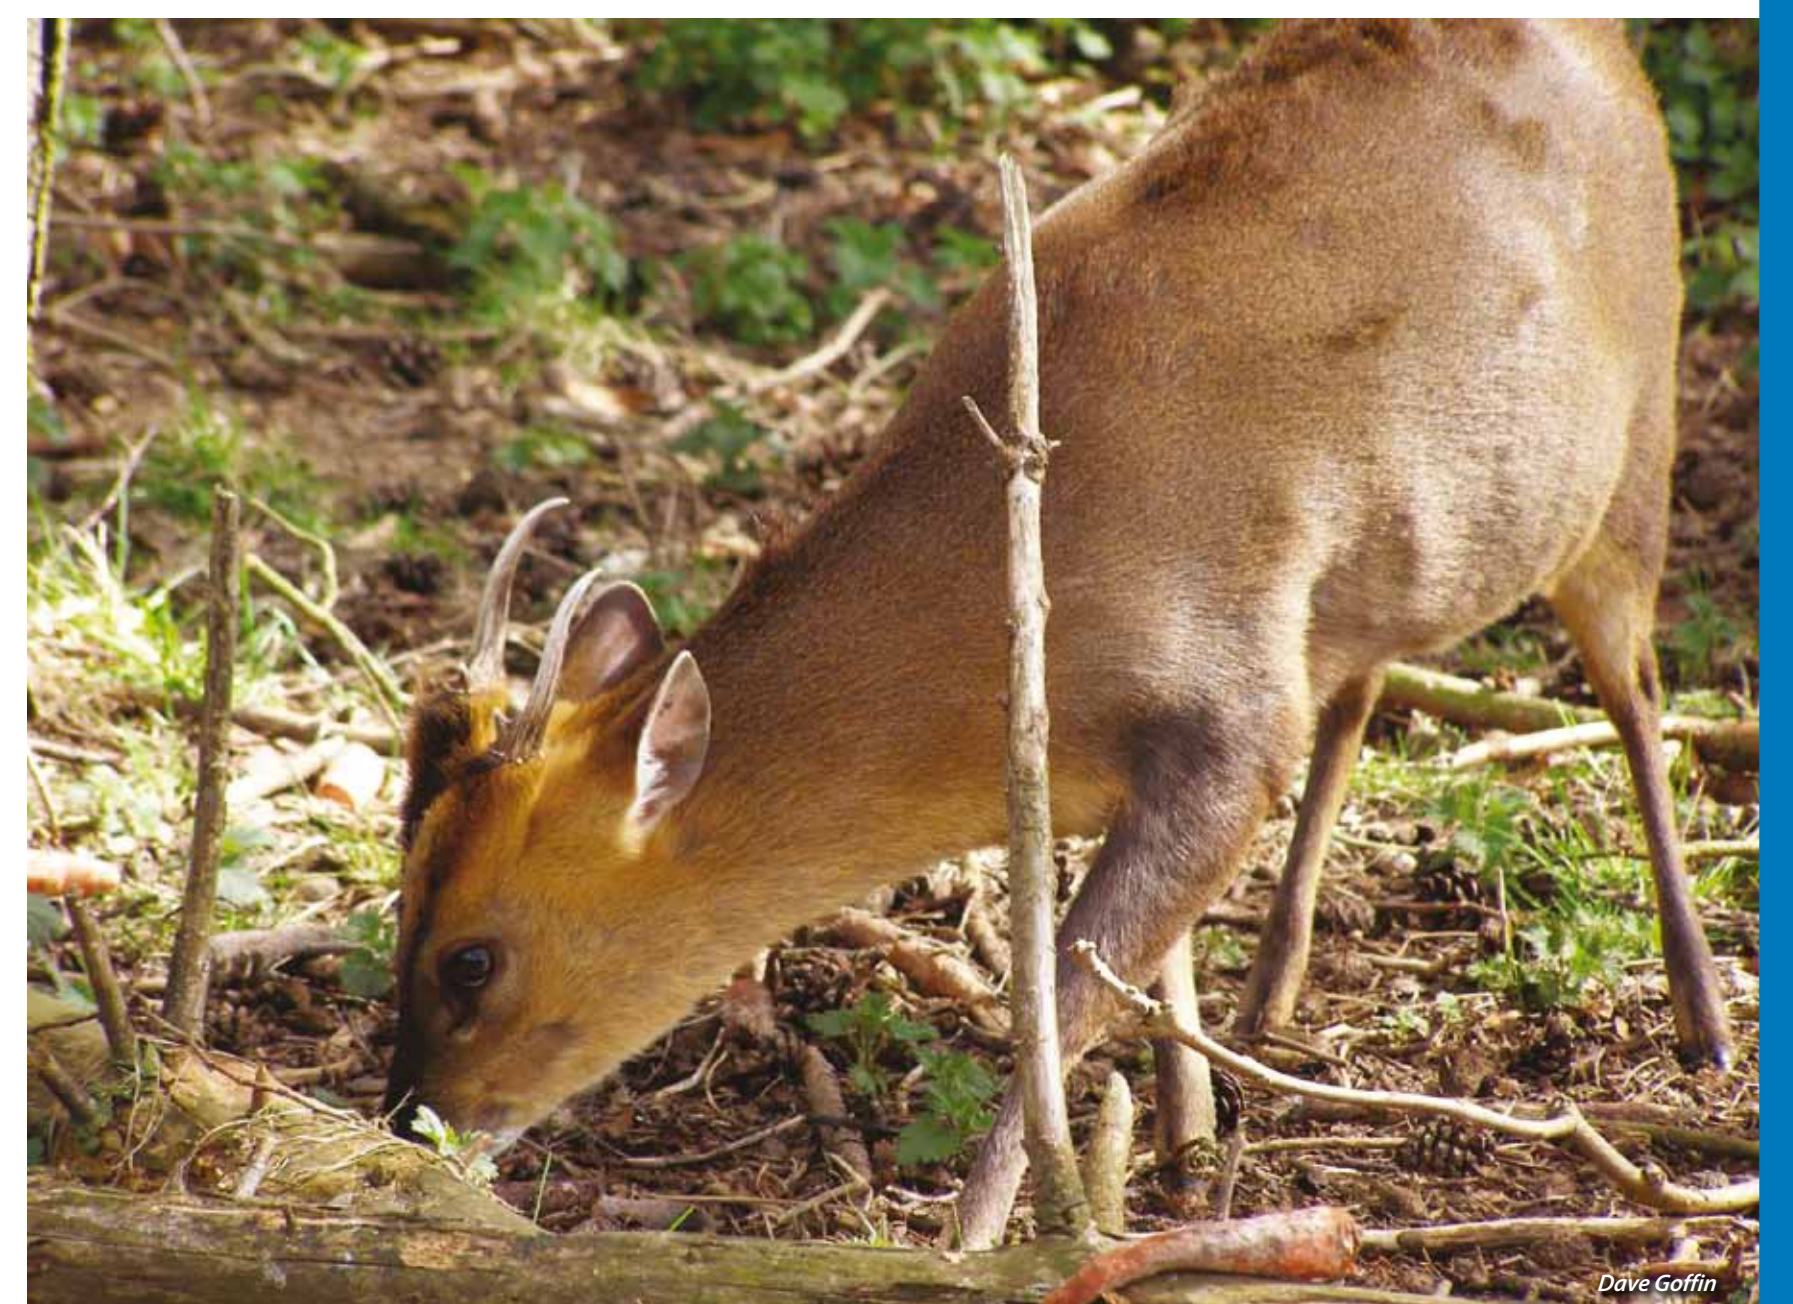

## DID YOU KNOW?

### Muntjac deer:

- come from south east Asia
- are Britain's smallest species of deer
- are also known as 'barking deer'
- have small, curved antlers

Young (kids) born all year round.

Muntjac deer are usually solitary or found in pairs.
